

The Staff

Facilitating the Caring

Staff works to maintain and assist participants.

Social workers screen and revisit participants to see that their needs are met, and also link participants with other community services from groups and individuals.

Donations

Donations allow for the partial subsidization of those unable to afford the total cost of meals.

Kings County Commission on Aging

is a private non-profit agency that was established in 1970 and is responsible for provision of home-delivered meals to the elderly in Kings County.

The program is committed to delivering nutritional meals to the homebound. Another facet of the program is to ensure the emotional & physical well being of participants.
